Career Objective

Aspiring Java Backend Developer with hands-on experience in Core Java, Spring Boot, RESTful APIs, and MySQL. Interested in designing efficient backend systems, implementing robust business logic, and improving application performance. Looking for an opportunity to work in a collaborative environment where I can apply my skills, grow as a backend engineer, and progressively explore automation solutions and AI-driven agents to build intelligent, scalable systems.

Skills

Programming Languages: Java, SQL

Backend Technologies: Spring, Spring Boot, RESTful APIs

Databases: MySQL

Frontend: HTML, CSS, JavaScript, React.js

Tools & Platforms: Git, GitHub, VS Code, n8n

Automation & AI (Learning): Workflow Automation, AI Agent Fundamentals

Concepts: OOP, MVC Architecture, CRUD Operations, API Integration

Projects

Student Management System (CRUD Application) | *Java, Spring Boot, MySQL, REST APIs* **2025**

- Developed a backend-driven Student Management System implementing complete **CRUD operations** for managing student records.
- Designed RESTful APIs using **Spring Boot** to create, read, update, and delete student data efficiently.
- Integrated **MySQL** database with proper schema design and handled data persistence using JPA/Hibernate.
- Implemented layered architecture (Controller, Service, Repository) following **MVC design principles**.
- Tested APIs using Postman and ensured proper request validation and error handling.

Distraction Remover – Chrome Extension | *JavaScript, Chrome Extension APIs* | [Live Link](#) **2025**

- Developed and published a productivity-focused Chrome extension available on the Chrome Web Store.
- Implemented JavaScript content scripts to dynamically hide recommendations, Shorts, comments, and suggested videos.
- Used Chrome Storage API to persist user preferences and manage extension state efficiently.
- Improved user focus by modifying the DOM in real time without affecting core video playback functionality.

Certifications

- **Certified Java Development Expert (CJDE-25):** Successfully completed certification validating strong understanding of Core Java concepts, object-oriented programming, and programming paradigms. Issued by MISAC — Validity: Lifetime.
